# CREST METER PULSE READS TO 30KV W/ CASE

Part Number: PULSECREST

## Features

- For verifying output voltage and the calibration of PCWI Pulse Type Porosity Detectors
- Ensures accuracy and enables voltage adjustment (if necessary)
- Compact, lightweight hand-held unit with integral probe
- Range: 5 to 30kV
- Suitable for PCWI Pulse Detectors ONLY

## Description

For verifying output voltage and the calibration of PCWI Porosity Detectors and Holiday Detectors.

Application:

- Verification of output voltage and set voltage of detectors when a load is applied to the probe
- To ensure accuracy, and to enable voltage adjustment (if necessary)

Features:

In support of our policy of continuous product improvement we reserve the right to change materials and specifications without notice. Drawings, where used, are not to scale. All dimensions are in millimetres and sizes given are approximate. Where possible, technical MSDS data sheets are made available on the website. All products should be installed and used in accordance with manufacturer's instructions provided. Warning: products may be the subject of registered designs and patents. Refer to website for terms and conditions on warranty.

- Used for checking & calibrating Porosity Detector output voltage
- Compact, lightweight hand-held unit
- Integral probe
- Conformance Certificate
- Carry Case

PROUDLY MANUFACTURED IN AUSTRALIA BY PCWI.

## Specifications

Weight: 390g

Dimensions: 300 x 75 x 40mm

Range: 5 to 30kV

Resolution: 100V

Earth Lead: Separate
